

Lance Baily takes advisory board position at Healthcare Simulation Middle East

The formal role includes activity audit and aligning strategic direction to the mission and vision of the organization.

SANTA ANA, Calif. - Jan. 17, 2023 - [PRLog](#) -- Lance Baily, Founder & CEO of HealthySimulation.com takes advisory board position at HEALTHCARE SIMULATION MIDDLE EAST.

Lance Baily says, "Healthcare simulation has a role to play in building regional and global leaders in healthcare. However, it cannot be achieved without collaboration. I've experienced the power of teamwork as firefighter. Expanding a multi-site sim center, establishing the non-profit organization 'SimGHOSTS - The Gathering of Healthcare Simulation Technology Specialists' to integrate global expertise and building HealthySimulation.com to disseminate resources are a testimony to collaboration and entrepreneurship. As advisory board member, my role is to counsel, connect communities and amplify regional agenda. I can't contribute if you won't. Meet me halfway."

The formal role includes activity audit and aligning strategic direction to the mission and vision of the organization.

Ansari Shabnam Ateeq, President, Healthcare Simulation Middle East says, "Lance Baily is an aggregator for the global healthcare simulation community. He has served as the Director of the Nevada System of Higher Education's multi-institutional, multi-disciplinary Clinical Simulation Center of Las Vegas and founded HealthySimulation.com as a resource to support healthcare simulation professionals. He has co-edited the book 'Comprehensive Healthcare Simulation: Operations, Technology, and Innovative Practice', that outlines knowledge and skills required to be a healthcare simulation technology specialist. Healthcare Simulation Middle East is the first and only US 501(c)(3) non-profit organization for healthcare simulation professionals in the Middle East. Lance Baily's acceptance of advisory board position is a win for the region."

Deb Tauber MSN, RN, CHSE, CEN shares, "I met Lance Baily at IMSH and INACSL meetings a lifetime ago. I was dipping toes as entrepreneur. We became close friends. Make no mistake, he's busy. The mentorship holds value."

Ferooz Sekandarpour adds, "Lance Baily has a fan base in the Middle East. We've worked together, I've had a chance to observe him. He is direct with feedback and understands the ideation-to-implementation cycle. With that wealth of experience, his presence fills a gap."
