Failure is inevitable and necessary: "Each of my setbacks has been a stepping stone, a necessary step to learn hard lessons, teaching me resilience, adaptability, and the importance of never giving up."

If it is to be, it's up to we: "If we continue to foster a spirit of collaboration and mutual support, we can ensure that no one is left behind. It's up to WE. WE are the help we are looking for."

Opportunity, not passion: "Find what you are good at, continuously hone your abilities, and be open to new possibilities. Success often comes at the intersection of skill and opportunity."
